Dear Resident

Transformer delivery, Saturday 21 October

We are writing to confirm that a supergrid transformer delivery will be taking place overnight on the evening of Saturday 21 October.

The transformer will be delivered on a specialist vehicle that will arrive along Luton Road via the M1 motorway junction 12. The delivery will include a police escort.

While we don't anticipate the delivery will cause any disruption, we would kindly request that residents use their driveways and avoid parking on the street or pavement along Water End Lane and its junction with Luton Road.

Work to put the transformer safely into temporary storage will then continue on Sunday 22. The equipment will be stored at Sundon substation ahead of being used for another project in Surrey planned for next year.

If you have any queries, please contact us at nationalgrid@NGSundon.co.uk or by calling 0800 915 2487 and leaving a message.

Thank you for your continued patience as we carry out our essential work.

Yours faithfully

Anita Gray

Project Engineer, Electricity Construction

National Grid
