Dear Resident,

Installation of New Bus Stop and Bus Shelter

We are writing to inform you that works will shortly commence to install a new bus stop and bus shelter on land forming part of the public highway on Luton Road, next to Wesley House, near to your property.

The new facility is intended to improve access to public transport for residents and visitors and provide a dedicated and accessible waiting area for bus users. The scheme has been developed in consultation with the relevant authorities and has the support of **Chalton Parish Council**, as an improvement to local public transport provision.

The works are scheduled to begin week commencing 21st September 2026 and are expected to be completed on that day, subject to weather conditions and unforeseen circumstances.

We are aware that some residents currently use this area for vehicle parking. However, the land forms part of the public highway and is not designated as an authorised parking area. As the site is required for the construction of the new bus stop and shelter, we kindly request that all vehicles no longer park in this area, and alternative parking is found.

Keeping the area clear will enable contractors to undertake the works safely and efficiently, helping to minimise disruption and avoid delays to the programme.

We appreciate that this may cause some inconvenience and thank residents in advance for their cooperation and understanding while these improvements are delivered.

For clarity, please observe the area designated for the forthcoming bus stop and shelter.

Should you have any questions regarding the scheme or the planned works, please contact.

Yours sincerely

Dave Streeton
Senior Public Transport Officer
